

Queen Defi

The Best Binary Options

Why should traders choose *Queen Defi*?

We provide the financial instruments that enable you to profit by forecasting cryptocurrency price rates. This is called trading, and a person who trades is called a trader. Traders make forecasts as to whether the price of an asset will rise or fall over a certain period of time. If the forecast is correct, the trader gets a profit of up to 95% of the trade amount.

Stock, Forex, Gold,...

Queen Defi do not require that a trader perform an in-depth financial market analysis. However, you cannot rely on mere luck either.

To trade successfully, a beginning trader should explore the features of the trading platform and learn a few popular trading strategies.

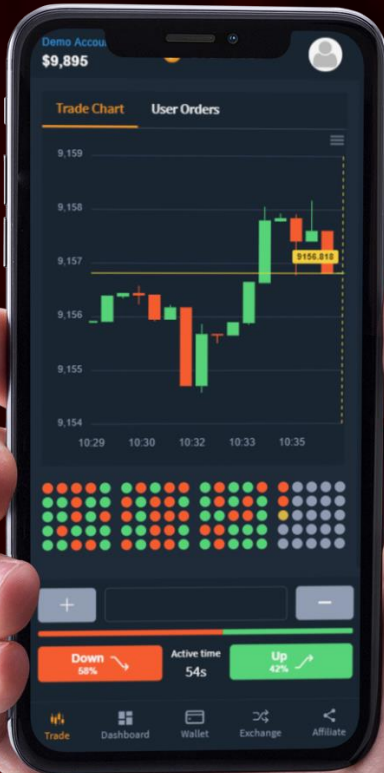

MARKETING PLAN

LEVEL	Agency commission	Trading Commission	Agency Conditions	Trading Conditions
1	50%	1,0%	Agency	0
